The Constitution in a cataly in the world's series between the Athletics and the Giants.

The Constitution will receive over this wire today the full Associated Press detail of every-play just as it happens at the Polo Grounds, and Atlanta fans will be given the plays in the few brief seconds thereafter that it takes to send a message through from Gotham to the Gate City of the South.

Dick Jemison. Atlanta fans remember the effective detail of the Jeffries-Johnson fight, megaphoned by Mr. Jemison. The detail of the world's series games will be handled in the same accurate, complete manner.

A score board, showing the batting order of the two teams, the opposing batteries, the score by innings and other little details will be displayed from the second floor window of The Constitution building.

As each player comes up to the bat, just what he does will be told quickly, accurately.

As each player comes up to the bat, just what he does will be told quickly, accurately.

Come out to this detail. It's free. The board will be displayed from the window facing the Forsyth street viaduct and the megaphoning will be done from the same window.

If you cannot come out to this free detail, phone. The Constitution's wonderful telephone service, which was the source of so many compliments during the Mobile-Atlanta series in that great pennant fight, will be working in full blast today and every day during the remainder of the series.

Remember the instructions that were issued at that time.

Phone Main 5000, ask "What's the score?" and then ring off when you get the answer, as there is sure to be someone else waiting for you to get off the line.

Don't forget. The games start at 1 o'clock.

The Constitution's service will be the most complete — and the charge is—

NOTHING.

ATLANTA'S WORST SCANDAL!

ATLANTA'S WORST SCANDALI
The Constitution exposes today the details of the worst multipal scandal in the
history of the city.
Organized graft and organized crookedness both are bad ecough.
Both are saintly compared with that
municipal mismanagement which, with milmiles of borrowing can commiss in the earslines of borrowing can commiss in the earsmiles permitted the same that the same transparence
and the same transparence of thousands or

efficiency of the entire school system of
Atlanta upon which the mental capacity of
fast citizens of the entire school system of
Atlanta upon which the mental capacity of
fast citizens of tomorrow must depend.
That is the substance of our first-page
story. Who is the print the same transparence
for the school of the story:
The schools of Atlanta are crowded past
the sanitary and hypicatic danger line. In
seem instances the congestion is such trait
young children are being taught in a basement in close proximity to toleta. In othare, the three youngest grades of the school
carry from ten forty per cent more than
their normal capacity of pupils with the
result that each day several cases of sick,
nass is a didity occurrence. In many others
the poverty of belifies is such that 'instruction' degenerates into a burleague.
The Constitution with six means the

Here are some of the high lights in the
fragic story published elsewhere. It was

selves and their persistent organisation.

Here are some of the high lights in the tragic story published elsewhere. It was nathered and written by one of the most experienced and conservative members of The Constitution's staff.

In Imman 'park school three grades have, of necessity, been placed in the basement squarely openits and near to the tellets. What does the board of health, the physicians, say? Yet this timing must continue, or the three grades be disbanded.

neath, the physicians, any? Yet this thing must continue, or the three grades be disbanded.

In the Highland school the rooms are 32 feet and 4 inches long; 19 feet and 1 1/2 inches wide; 12 feet and must need to be seen the second of this school, 1/2 inches wide; 12 feet and 1 1/2 inches wide; 12 feet and 1

striving against odds to advance them in life, pinching and sacrificing to give them an education, the conditions are pictured as déplorable. With the school on the How-ell Mill Road, conditions are Bittle better. In the English-Commercial high school 709 young women of Atlanta are packed and jammed, forced to study under miserable

In the ninth ward there is no school at all. The schools adjacent are congested by the inevitable overflow.

"Barbarous" is the word used to describe the situation at the negro school at Pittsburg.

Each other of the schools in the city falls far below requirement.

Last January, Superintendent Slaton and the board of edocation, after much pruning, naked conneil for \$887,000 as a total budget with which to operate the schools and to forestail these conditions. The luminence of the need was then stressed on council. Council gave \$315,000.

By the blessing of the Almighty, we have thus, far enjoyed fairly decent autumn weather. Even with this advantage, sickness has been prevalent from these unspeakable conditions. What will it be if winter and closed windows come ravening down on these defenseless tota? Where will the standards of the system go if pupils acquire an "education" in a stuffy stronger and arrowded so close they can hardly function mentally?

This sendad, bearing on the lives, the health and the efficiency of little children who cannot help themselves, is about the worst in Atlanta's history. We could put up with fracted government procedure, and with pinchpeany "economy" in other respects, It is intolerable when children are made the 'victimas!

Despite Atlanta's history. RESPONSE-BILITY MUST AND WILL BE LOOGED

Despite Atlânta's myslic mate and "next door neighbor" government, RESPONSI-BILITY MUST AND WILL BE LODGED FOR THIS OUTRAGE. Despite cries of "poverty," the outrage will be remedied. A city as rich and as enlightened as this one, a city with several million dollars borrowing capacity, WILL NOT SEE ITS CHILDREN SUBJECT TO THREAT OF DEATH AND DISABULTY WITHOUT FINDING RELIEF OR SCOURGING FROM PUBLIC LIFE THOSE WHO FAIL TO FIND RELIEF.

We've had enough gibbering and paters.

We've had enough gitopering any parter-ing and evasional calls upon the PAR-ENTS of Atlanta to PROTECT THEIR CHILDREN; it calls upon the mayor and council of Atlanta to take at once such steps as may be imperative to exculpate them from a share in a scandal that closely borders on municipal crime.

The Safe Choice

In Sale Choice

In Selecting A deposition
for your funds, absolute safety is your
first consideration. A wealthy bank with
an inexperienced Management and Directorate may be all right, or a moderately
rich bank with a strong Management and
Directorate may be able to afford you
every courtesy you desire. But decidedly
the safe choice is to deposit in a bank
with an experienced Management and an
able Directorate, and where its reputation for meeting every need of the most
particular deserving depositors extends
over a period of many years.

The ATLANTA NATIONAL BANK
has met all these requirements.

BUSINESS LITERATURE

The time to send out business literature is when business is slow. You don't send for a doctor when your child is in good health. Why should you curtail on your booklet simply because business is quiet. That's when you need to send out a jam-up booklet, and you will find that returns will more than justify the expenditure. Let us work with you in getting up a booklet which will "pull" business for you. WE KNOW HOW.
